

So, you want free gems in clash of clans? Or free in-app purchases? Or paid apps for free?

Well, I have a solution.

Note:

- 1) I am not the creator of the app I am going to recommend you.
- 2) You must have an android or iOS phone to download this app (Actually I don't know if that app is available in windows app store).
- 3) Please recommend people to use this method.
- 4) In this word document, I am going to teach you how to get gift cards (Google play store, amazon, etc.). You can use these gift cards to buy gems. You are getting these gift cards for free, so this means you are getting gems for FREE!

Steps:-

- 1) Go to google play store.
- 2) Search for an app named "Cash For Apps".
- 3) Install it (it is a free app).
- 4) Open it and make an account.
- 5) In the referral code, type bee39f.
- 6) This code will give you some points.
- 7) When you have enough codes, redeem them in the form of a gift card.
